Pecos High School Early College

Pecos Early College High School is an educational opportunity that began with the freshman class of 2015 and is provided through the collaboration of the Pecos Independent School District and The University of Texas of the Permian Basin. This unique school is specifically designed to provide students with rigorous course of study. Students attending the school will be provided advanced coursework that provides the student an opportunity to graduate from High School with up to 60 hours of college credit, tuition free. The school redefines the typical comprehensive high school experience to complement an academically oriented small school setting.
